

"ARTIST STATEMENT"

Putting an idea down on paper and have it come alive through the medium of glass is a passion. Being hooked on glass since 1978 I am always amazed with the outcome. Using *Mother Nature* as a constant source of inspiration, I try to convey a soulful quality with *texture* and *harmony*. By adding sticks, stones, beads, found objects as well as metal workings, these elements help to tell a story....evoke an emotion... capture your *imagination* and to make you *smile*. Each piece takes on a *life and soul* of its own. George Bernard Shaw said, "YOU USE A MIRROR TO SEE YOUR FACE AND THE ARTS TO SEE YOUR SOUL." As an artist in the growing field of glass art, I will continue to create calligraphy of light and color so that you may experience the wonderful qualities of glass, *nurturing your spirit* and balancing it with *illusion*. His *spirit* is everywhere...thank you...and many Blessings to you, the happiness in your life depends upon the quality of your thoughts.....

With love,
